

## FEAR CLANS MAY RENEW FEUD IN THE COURT ROOM

MOUNT VERNON, Ky., August 22.—With twenty-five national guardsmen from London and twenty special deputy sheriffs on guard, the Rock Castle county court house presented a martial appearance as the case of John Bailey, Jr., slayer of Beverly White, was called for trial here today. Bailey's case was brought here on a charge of venue from Knox county, where the slaying occurred. Approximately 100 members of the Bailey-Lee clan and the Whites, opposing factions in the most bitter mountain feud that has torn eastern Kentucky in recent years, were present for the opening of the trial.

The troops and special deputies were summoned to keep down any possible flare-up of the feudal spirit that in the last few years has caused a number of deaths on both sides of the mountain war and which in the last quarter of a century has resulted in possibly a score of murders.

Judge B. J. Rethum, who is conducting the court here, asked for special guards for the court room.

Major James L. Dillon, in charge of the guardsmen, has issued a warning to the clansmen against carrying concealed weapons during the trial.

The killing for which Bailey is to be tried occurred on April 7, last, at Heidelberg's station near Barbourville. Bailey with his father, William Bailey, a brother, James Bailey, and a deputy sheriff named Perry, took to the woods, but surrendered two days later and was taken to the Harlan county jail. Later he was transferred to Mount Vernon and then to Louisville and finally was granted bail at Mount Vernon. John Bailey was indicted on the charge of willful murder and for this he is to be tried. His father, brother, and Perry, have been indicted on the charge of conspiracy to murder Beverly White and their cases also are set for this term.

Although the best of order is being kept here by the state troops and special deputies, the Whites and Bailey-Lee clans present somewhat the appearance of wrestlers preparing to leap at one another. The Whites have made the Rock Castle hotel headquarters for their adherents, while the Baileys and Lees are putting up at a boarding house. On the street one seldom sees a member of one opposing clan on the same side with members of the other.

## Kills Child To Save It From Want

CLEVELAND, O., August 22.—Mrs. Mary Solite, 26, preferring to see her baby dead than have to face a life of poverty, was under arrest at police headquarters today on a charge of murder.

Police Sergeant McCarthy declares the young woman who lives with her husband, admitted she smothered her week-old child rather than see it live in want.

Yesterday afternoon Sergeant McCarthy received a report that a woman in the West Sixth street neighborhood had been seen trying to dispose of the body of a baby. Search of the district revealed the body of a baby lying in a dinner pail in the basement of Mrs. Solite's home.

At the county morgue it was declared the infant had been smothered to death and McCarthy went back to the West Sixth street house and questioned Mrs. Solite.

"I smothered the baby with the bed clothes," she said to have declared. "I did not want to see him grow up with nothing ahead. There is no money—nothing. What could I do, he would be better dead."

She wept when told she would have to go to jail.

## Twenty Children In 23 Years

MRS. SIDNEY JOHNSTON.

ST. LOUIS, Aug. 22.—"Good health," Mrs. Sidney Johnston has been one of her principal rewards of motherhood.

Mrs. Johnston has borne 20 children in 23 years. Of these, nine are living. The youngest, Lea, is only five months. Mrs. Johnston's husband is a captain in the fire department in East

St. Louis, where they live. "During my married life," says Mrs. Johnston, "I have had only a few sick days."

"Fact is, I guess I have been too busy and too happy to get sick. You know, looking after such a large family keeps one so much on the go one doesn't have time to think about being ill."

## Pennsylvania Takes Load Of Marines

PHILADELPHIA, PA., August 22.—The United States battleship Pennsylvania, with 400 marines for duty in Panama aboard, passed out the Delaware capes today. The exact destination of the force was not made known and officials at the Philadelphia navy yard declared not even the commanding officers knew the duty they were to perform upon arrival in the canal zone.

Rush orders to prepare supplies for the marines who were sent here from their base at Quantico, Virginia, were received yesterday by telephone from the navy department and navy yard forces worked throughout the night, loading the Pennsylvania with equipment for a prolonged stay away from base.

The decision to augment American forces already in the canal zone apparently was reached suddenly as the Pennsylvania, which was enroute from New York to Pacific waters, was ordered by wireless to proceed to Philadelphia and take on the marines. The battleship was stopped at the Delaware breakwater and the marine companies were taken directly from their trains to lighters and sent down the Delaware river to their transport.

## Living Costs Show Slight Decrease

NEW YORK, August 22.—The cost of living decreased seven-tenths of one percent during July, according to figures made public today by the National Industrial Conference. Prices are still 62 percent higher than the July, 1914, level and only 20.8 percent lower than the peak reached in July, 1920.

Declines during July were in clothing, which dropped 3.5 percent, and in sundries, which dropped 1.1 percent. Food prices, the report said, went up 3 percent.

## Plan To Confer

MEXICO CITY, Aug. 22.—The newspaper El Universal today says it is informed that the heads of the important oil companies in the United States will leave New York Wednesday for Mexico City for a conference with government officials here looking toward an amicable and definite settlement of petroleum questions. Its advice, it says, state that the meeting has the approval of the state department.

## Macon, Ga. Hotels Destroyed

MACON, GA., August 22.—Eleven persons early today were believed to have lost their lives in the fire which last night destroyed the Brown house, one of the oldest hotels here. One man is known to be dead and firemen believed there are at least ten bodies in the ruins.

The fire, which completely destroyed the Brown house, a hotel in the downtown business district, and half the block on which it is located, was brought under control at 5:30 a. m. Owing to loss of the hotel register, it was difficult to check the number of missing.

Ten persons, suffering injury from burns or sustained in jumping from the second and third stories of the hotel, are under treatment at the Macon hospital.

Starting with an explosion of chemicals in an adjacent drug store, which blew in the side of the structure, the fire quickly shut off the escape of many of the hotel guests.

Finding the stairways blown away by the force of the explosion and the fire escapes almost instantly enveloped in flames, these in the front part of the building were forced to leap from windows on the lower floors. Men on the sidewalks saved many women from injury by catching them in their arms. Between 100 and 150 persons were registered at the hotel.

G. L. Wilder, who escaped by dropping from the third floor of the hotel annex, said he was certain he left ten or fifteen men behind him in that part of the building who had no way of escape.

The only known death today was that of J. W. Hays, justice of the peace, who died from burns while being removed to the hospital. Although the fire had burned itself out in the hotel area, firemen said, it would be several hours before the premises could be explored to determine the number of dead.

# PADEREWSKI WARNS OF PERIL

## Silesia Torch; Says Patriot

PASO ROBLES, CAL., August 22.—"A torch that may start another world conflagration," Thus Paderewski describes Upper Silesia.

The world's greatest pianist, who sacrificed his art and most of his fortune on the altar of patriotism, is preparing to sell his wonderful ranch in California.

In the vicinity of Paso Robles, a great almond-growing country, Paderewski owns 2,544 acres of choice orchard land. Within a few weeks all but 320 acres of Rancho San Ignacio will be sold at public auction. The 320 acres is in Madame Paderewski's name and will be retained for a time.

Following the sale, in a few months, the Paderewski plan to sail for Switzerland. Later they may return to Poland, but when is not decided. Every day Paderewski practices at his piano for an hour. But this is behind tightly closed doors. Only Madame Paderewski is permitted to hear the master who once thrilled countless thousands.

## Where Does New York Go At Night?

NEW YORK, Aug. 22.—New York. Throughout the length and breadth of America, the name conjures up a vision of bright lights, myriad theaters, dazzling beauties, brilliant restaurants, quaint Greenwich Village—in a word the place where "nobody goes home."

But alas—truth, like murder, will out.

New York is only bluffing about being the place "where nobody goes home."

You, Mr. Visitor, do you know whom you will meet along the great "White Way?"

Nine chances out of ten it will be someone like yourself. The proof?

Fifteen names were picked at random from New York's voluminous telephone directory. Fifteen persons were called and asked as to how they spent their evenings.

Thirteen of the 15 candidly spend most of their evenings at home.

# Germany Not Jumping Through Hoop At Mere Nod From U. S., Want Say On Treaty

WASHINGTON, Aug. 22.—The strategy behind the United States Government's negotiations with Germany over the making of a new peace treaty is just coming to light. It is one of the most interesting inside stories which official Washington has developed since the war.

The truth is President Harding and Secretary Hughes have been leathery to announce to the world that the plan whereby congress was to make peace by resolution is after all ineffective. The executive branch of the government is finding out that it alone carries the burden of making peace with Germany and that the Germans are not jumping through the hoop at the mere nod of Washington but are actually asking for a voice in making the treaty—a procedure in contrast to the moments at Versailles when the allies framed a treaty and called the German delegates into the room and commanded them to sign on the dotted line.

## Await Outcome Of Parleys

When Congress passed the joint resolution declaring peace, it was believed that peace had been accomplished and that a formal proclamation of peace would follow in the natural course of events. The department of state opposed such a course putting up the argument that if America announced by proclamation that she is at peace with Germany the United States would be playing its last card, so to speak, and would have no leverage upon Germany in the negotiations of a peace treaty. So the proclamation has been held up pending the outcome of the parleys between American commissioners Dresden in Berlin and the German government.

But that isn't all. For weeks the White House and state departments have been reeling about the negotiations and significantly enough denials have been made of various stories as to whether the Versailles treaty would be re-submitted. Members of the irreconcilable group in the Senate have stated positively their conviction that the Versailles treaty wouldn't be re-submitted to the Senate. But the truth of the matter, it now appears, is that it is now up to the Germans.

## Ship Board Has Chance To Sell "White Elephant"

NEW YORK, August 22.—The shipping board today was in a fair way of getting rid of the major portion of its "white elephant"—the war time constructed wooden ships.

Official announcement by the board contained the information that bids submitted by the Ship Construction and Trading Corporation of New York of \$23,000 each for 205 of the 285 wooden craft had been accepted.

Vice Chairman O'Connor, of the board, commenting today on the sale, said the price was exceedingly low in view of the cost of the 285 vessels recently estimated by Chairman Lasker at \$20,000,000. Mr. O'Connor pointed out that the board long had sought to sell the wooden ships, and said that the alternative to sale at a low price was allowing the boats to rot at anchor.

PHOENIX, Ariz., Aug. 22.—Flood waters in the state capital building were slowly receding early today, after reaching a level of two feet in the first floor offices of the governor and his chief assistants. The damage to the capital was estimated at \$300,000 by H. M. Alexander, custodian, in addition to the loss of irreplaceable records in basement store rooms, which were flooded.

Two companies of state troops were called out to guard the flooded area. Residents of northwestern Phoenix were warned by the sheriff yesterday evening to move to higher ground a few minutes later the water entered the city having cut its way through the grand canal, one of the largest arteries of the irrigation system two and one-half miles north of the city. This canal had withstood Friday's flood.

# REMAINS TRUE TO HER MARRIAGE, IS SHOT TO DEATH

PORTERVILLE, CAL., August 22.—Mrs. J. B. Bachman, forced to choose between her husband and another man in the presence of both, elected to remain true to her marriage, and thus sealed her death which came an instant later, when the other man, Walter H. Alexander, it is charged, shot and killed her yesterday.

"Well, what are you going to do?" Alexander was quoted as demanding of Mrs. Bachman.

"I guess I'll stay here," Bachman said his wife replied from her seat beside him in an automobile.

Thereupon, Bachman says, Alexander fired a shot gun point blank at the woman.

The shooting occurred at the ranch home of H. R. Collins, stepfather of Alexander, in the Poplar district, near here. Alexander's mother and stepfather also witnessed the shooting.

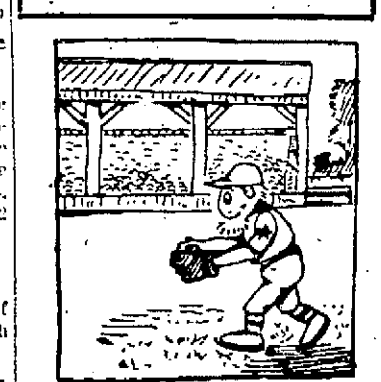

After the shooting Alexander left, carrying the shot gun, it was said, and a sheriff's posse is searching for him.

# Japan Under Fire In The East; Chinese Are Suspicious

SHANGHAI, Aug. 22.—"The military or military of President Harding's Washington conference will, very probably, be decided by Japan."

It was a high placed and conservative Britisher who made this statement to me, but it occasioned no surprise. Nippon has no more severe critics in this part of the world than Britons. The real significance in this opinion lies in the fact that practically all educated Chinese share in it, with the result that China today is watching Japan with growing misgivings.

Most Chinese I find, are convinced that Japan will leave nothing undone to make the conference abortive.

Act As A Brake

Japan, they argue, will not willingly show her hand regarding China.

Shantung, the Twenty-one Demands, Saghalin Island, the Amur Valley, Vladivostok, Nikolai, Siberia, Manchuria, Mongolia, Korea, Yap, Pacific cables and communications and the like.

Nor will she recede, if she can help it, from her position on the "paramount interest" she claims in China and other parts of Asia. To the contrary, it is believed in China she will continue to lay claim to the right to establish a "Mouroe Doctrine" of her own in the Far East and try to obtain the conference's recognition of it.

It is freely predicted that the attitude of Japan at the conference will be one of objecting, hindering, frustrating and blocking and of a general sitting on the holding-back stance.

In short most Chinese believe Japan will act as a "nullifier."

Japan's Great Chance

Another belief often voiced is that between now and the opening day of the conference, Japan will attempt to influence China, or secretly dictate to her what she shall say and do at Washington.

The attitude of the British in China is that the fate of the Anglo-Japanese Alliance is now in the balance and it will depend entirely on Japan's conduct at the Washington conference, whether or not it will be renewed.

All here—Americans, British and Chinese—see in the conference Japan's great chance to make or break herself. Between now and the end of the (Continued on Page Six)

### SPECIAL CONSTABLE ARRESTED FOLLOWING OPINION GIVEN BY COUNTY ATTORNEY

Following closely on the heels of the opinion of Prosecuting Attorney George W. Sheppard that the special constables who have been operating in Clay township and elsewhere in this immediate vicinity without authority of law, came the arrest Monday of

John S. Wolfe, one of the alleged "fly cops" on warrants issued from Municipal court charging unlawful pointing of firearms and of impersonating an officer.

Wolfe was taken into custody at his home in New Boston by Officers Schroeder, Brunham and Foehr and on being arraigned before Judge Sprague pleaded not guilty to both complaints and was released on \$400 bond pending trial which was assigned for next Thursday at one o'clock.

The complaints against Wolfe were filed by Philip Schneller, a young son of Lou Schneller, 413 Court street, who claims that Wolfe, posing as an officer held him up at the point of a revolver and threatened to shoot him. The incident occurred a few weeks ago while he was motoring on a West Side road, Schneller claims, and declares that the action of the defendant was without cause or probable excuse.

Later Frank Young, an employee of The Vulcan Last Company, filed a charge of pointing firearms against Wolfe and in securing out the warrant the complainant told the officers that he had been mistreated and abused by the alleged officer in a

manner similar to that related by Young Schneller.

The Municipal court was flooded Monday with complaints of persons who complained of having been held up by the alleged officers and it was reported that the complaints filed were only a forerunner of numerous

other prosecutions soon to be started against these alleged constables.

When brought into court Wolfe made no statement further than to claim that he had been duly appointed according to law and that he acted in good faith at all times.

Savings Message No. 2  
Savings Safety Seeker,  
Anywhere.

Savings are absolutely safe in the hands of The Royal Savings and Loan Company, Gallia Street on the Square, Portsmouth, Ohio, because before it makes a loan on real estate three of its Directors see the property offered for security and place a value on it. The Board of Directors, consisting of nine successful business men, if all other things are acceptable, then allow a loan of not to exceed two-thirds of this appraised value unless additional security consisting of Royal Paid Up Stock or Liberty Bonds is given. This conservatism means absolute safety for money placed with them. Royal Building Association stock pays six per cent dividends.

Better paint  
for less money

PEOPLE who know good paint wonder how we can sell such extra high-grade paint as Certain-teed for such reasonable prices.

Very simple! The Certain-teed business is enormous. Besides paint and varnish, they make the well known Certain-teed Roofing and Linoleums. They are not wholly dependent on paint profits. Therefore, they can afford to make a very small profit on everything they make.

Each color is priced according to

what it cost to make that particular color. This means that all colors are cheaper than other high grade paints, and many colors very much cheaper.

You can't buy better paint than Certain-teed. It is made only from the highest grade materials. The formula is printed on every can. You will find that Certain-teed paint spreads better and lasts longer than ordinary paints. We have the right Certain-teed Paint or Varnish for everything inside and outside your house. See us before you paint.

### BIGELOW COMMUNITY CHURCH PLANS GIVEN A BIG BOOST ON RALLY DAY

More than coming up to expectations, the rally of members of the Sunday School and congregation of Bigelow church yesterday, when plans for making Bigelow the community church of Portsmouth were outlined, was a success in every way. The Men's Bible Class had more present than at any other Sunday this year and similar records were made by other classes.

After the regular Sunday school services all classes gathered in the big auditorium, where Supt. Hugh Higginson took charge. The first speaker was O. E. Ricker, teacher of the Men's Bible Class. He outlined efforts that had been made in the last few years to arouse Bigelow to her possibilities, and predicted that they were now on the right track.

Lee Smith in a very pleasing talk pledged co-operation of the Men's class and likewise predicted complete success for the movement. He also paid a deserved tribute to the leader of the rally plans, Chris Heer.

Wm. B. Altman was optimistic

over present prospects, saying that he was the more encouraged because he found a disposition prevalent to do anything asked. With such a spirit he could not see how the movement could fail.

Mrs. J. E. Butler, who with Mrs. Butler will have charge of the recreational and educational specialties of the Community Church, said the basic idea of the movement was to put into practical operation during the week all the good things learned on Sunday, and in addition to keep on learning. "We want to make it a seven day a week religion, and we are going to do it down here at Bigelow," he said. Mr. Butler asked for the co-operation of all Bigelow members, and said from the enthusiasm displayed Sunday, and from the response he had received during the week he had no fears as to the outcome.

Roger W. Selby outlined the financial plans for the year's work and asked that all be ready to participate in the work not only through giving

financial aid, but in personal service.

A feature of the morning was the singing under the supervision of Mrs. S. J. Timmonds.

All connected with the rally felt that the event was most successful, and that it presaged a great future for Bigelow.

### An Invitation To The Public

The present contract for supplying natural gas was made in 1905 and expires in February, 1929.

It is provided in this contract that the price of natural gas shall not exceed 40 cents per thousand. Manifestly it was within the contemplation of the parties that gas would cost this amount before the expiration of the contract.

From 1906 until 1917 natural gas was supplied to the citizens of Portsmouth at 25 cents per thousand. In 1917 this rate was increased to 30 cents.

The present rate is 40 cents per thousand. Natural gas has become a necessity in thousands of homes. We believe that the people wish to be assured of a continuance of the present service and that they are willing to pay a fair price for it. We do not believe that the people desire to junk their present gas rates, gas stores, gas

water heaters, gas furnaces and substitute the equipment necessary for burning coal. Gas stores are unsafe for coal burning.

The question to be determined is whether under all the facts 40 cents is a reasonable rate.

The officials of The United Fuel Company will be at the council chamber Monday evening at 7 o'clock to present the facts to all interested persons. All questions asked there will be frankly answered.

The Portsmouth Gas Company purchases the gas you consume from The United Fuel Company and pays 20 cents per thousand for it. The existence of The Portsmouth Gas Company depends upon the outcome of this rate controversy.

We, therefore, invite all who desire to do so to attend the meeting Monday evening.

## A Real Remedy For Falling Hair

Here's good news for all men and women whose hair is falling out, who are growing bald and have scalp itching with dandruff that itches like mad. Wurster Bros., of any good drug store, can now supply you with the famous Parisian sage (liquid form), which is guaranteed to quickly, surely and safely abolish every sign of dandruff, stop itching scalp and falling hair and promote a new growth of money refunding.

Thousands can testify to its excellence: some who feared baldness, now glory in their abundant hair, while others who suffered for years with dandruff and itching head got a clean, cool scalp after just a few days use of this simple home treatment.

No matter whether bothered with falling hair, gray hair, matted, stringy hair, dandruff, or itching scalp, try Parisian sage—you will not be disappointed. It's a scientific preparation that supplies all hair needs.—Advertisement.

Under these conditions, would it do for me to write to this girl for a date? It seems that we never get together in company and I am at a loss to know how to get any better acquainted before trying to go with her.

I have never been able to find out how old she is, but would guess that she is somewhere around fifteen or sixteen. Do you think she is too young for me?

When asking to go with a girl the first time, is it all right to ask if it will suit her for me to be her company on such and such an evening?

**LONELY TOM.**

The girl is really too young to go with young men. I would advise you to become acquainted with the mother before you try to go with the girl. When you meet any of the family on the street, smile respectfully and tip your hat. Do not attempt conversation until you have established a passing acquaintance. It would not be out of the way to speak on the street since they are new comers to your town and doing a public service which would make them known.

Later you can write the girl a note and ask to go somewhere with her or to call at her home.

# A WIFE IN THE MAKING

BY RHYLLIS PHILLIPS

## CHERRY IS UNFORGIVING

"My dear, dear little girl, if you and Ned are going to make the fatal mistake of mutually sticking out for 'rights,' there isn't a bit of use my trying to help you, nor anyone else either. If you truly love each other you will not be able to let some petty idea on each side, such as being right in the matter, outweigh everything else, including your future happiness. Cherry, if you love Ned, as I feel sure that you do, nothing else will matter. Nothing, nothing can possibly matter, but this one, big fact. More especially in the fact of this intrigue going on should you think carefully before allowing such a thing as false pride to wreck your life, dear," said Miss Laura as she looked tenderly into her visitor's eyes.

"I know you're right about things, Miss Laura," waited Cherry, but I'm all at sea about things now. This note has changed my opinion of Ned and the whole situation. It looks to me as though he has been confiding in Arline, discussing me, and our misunderstandings with her. Shameful thought. And feeling this, how can I possibly allow myself to go on curing, let alone fighting for his love, and my rights as his wife? Surely pride has to figure in the situation somewhat? Ned himself would feel the same way if he had found some other man's letter in my pocket. I know he would, for I saw just how unreasonable he was about Arthur even though he had been guilty of many things himself. Besides, Arline must have had some sort of encouragement from Ned to write such a letter. You know that Miss Laura. No nice girl would dream of writing in this way unless—unless she knew her man and her

ground pretty well. That's what hurt most. Oh, do you think that my Neddy has grown tired of me and is trying to get rid of me? It seems so awful, so almost impossible. When I remember our love, Hominytown Hill, his promises, I just wish that I were dead, I do," and here Cherry relapsed into tear again.

"Now, Cherry, this will never do. Keep the sparkle in your pretty eyes whatever happens. You will find that glances from clean, loving eyes will help most any heart tragedy to go the way you want, my dear. Let's put some nice cold water on them right away before they were damaged any more. What you want to do now is to keep cheerful and happy until Ned comes back. Look your prettiest when he arrives, and be so loving and glad to see him that he will wonder how he possibly managed to stand the two weeks without his little wife. Take my advice, dear," urged Miss Laura.

"I suppose that he would die of anger if he knew that I had found this letter. But I'm going to keep it until things are straightened out. And if they never are, why I can at least show him a very good reason for our separating," announced Cherry firmly as she slipped her face into the cool water her friend had brought her in a basin.

"There that's heaps better. Let's you and I sit and talk about other things for the rest of the time," suggested Miss Laura as she set a large platter of home-made chocolate cake down before her guest and followed it with a pitcher of lemonade. "Come on, Cherry, here's your favorite cake. Smile a little bit for me, dear," and Cherry did so.

## Mother Saved Her Baby

From Skin Suffering by use of Sykes Comfort Powder

Ashaway, R. I.—"With a large family of children and 17 grand-children I have had a wide experience and I want to tell mothers that I have never found any powder that would keep a child's skin so free from chafing, itching, scalding, rashes and all irritations and soreness as Sykes Comfort Powder. There is nothing like it to heal the skin."—Mrs. Charles A. Brown, Ashaway, R. I.

The reason Sykes Comfort Powder is so successful in such cases is because it contains six healing, antiseptic ingredients not found in ordinary talcums. For twenty years it has been used and endorsed by physicians and mothers, and nurses call it "A Healing Wonder."

## Swindled Out Of \$10,000

NEW YORK, August 22.—Police were searching today among the 1,355 Kates and 1,000 Kapans listed in the city directory for two men who swindled four residents of Newark, N. J., out of \$10,000 by the ancient "switched envelope" trick.

The four capitalists were introduced to Messrs. "Katz" and "Kaplan," first names not given, by a friend who said they could supply the Newarkers

with certificates representing whiskey in bonded warehouses.

To prove their good faith, the financiers produced \$10,000, which they permitted the dexterous Manhattanites to seal in envelopes pending delivery of the certificates. When they grew tired of waiting, they opened the envelopes and found them filled with paper.

## Judge Clement Gains 30 Pounds Taking Tanlac

Tanlac has not only restored me to health, but it has actually built me up thirty pounds in weight. Besides, and I feel that I would be doing my duty not to give the public the benefit of the facts.

The above statement was made by Oliver D. Clement, prominent real estate man and Justice of the Peace of Muskegon Heights, Mich. Mr. Clement resides at 1300 Lehigh St., and has offices at 200 East McKinney Ave. "I had been going down hill for two years," said he, "suffering from my stomach, kidneys and nerves. I had nearly quit eating in account of indigestion, and my back hurt me terribly. I couldn't sleep and finally got in such bad shape I couldn't get out of the house and had to use a cane to get about at all. I was almost a physical wreck and things looked mighty gloomy for me.

"One day a friend suggested that I try Tanlac. I felt very little improvement from the first bottle, but I stuck with it and after the second bottle I felt considerably better. My appetite returned and I started picking up in weight. Today I weigh one hundred and seventy-five pounds, and my friends who haven't seen me since I got Tanlac hardly know me. I am full of new life and energy and can attend to my business as well as I ever could. I simply feel the good of Tanlac to my finger tips."

## Japan Under Fire In East

(Continued from Page One)

conference, it is predicted, the decisive clash between Japanese militarists and liberals will come and that in a large measure the fate of the conference itself will depend upon the result.

**Liberals May Win**  
It is not considered necessary that there should be a change of government at Tokyo for the liberals to win. If Japan's progressives can bring sufficient pressure to bear on the present government to cause the Japanese delegates to Washington to adopt a conciliatory attitude, the success of the conference, it is believed, will be assured.

To the contrary, if the militarists continue to dominate in Japanese councils, according to almost universal opinion here, there is no telling the consequence.

The keynote of practically all Japanese politics is the economic question," said the editor of the British North-China Daily News.

"A nation which increases by 12 per cent while its food resources increase by only four is bound to look abroad in order to supply the deficiency."

**The British View**  
"So Japan looks to China as she may do quite naturally and with nothing but mutual good will."

"It is merely a question of the method by which her perfectly legitimate requirements are satisfied."

"And here's the rub."

"Force and military triumph have done much for Japan and, unhappily, those who rose to power by their use appear unable to conceive of any other means of getting what Japan needs."

"To this we owe the unhealed sore of Shantung, the Military Pact, the unappeasable hatred of the Chinese for their neighbors over the Japan Sea and the deplorable suspicion with which Japanese policy in the Far East has come to be viewed."

**Day of Reckoning**  
"The nations have still a great many problems on their hands nearer home and the Far East remains a fairly clear field for Japan's militarists."

"But sooner or later the day of reckoning will come and it is a question for Japan whether she will await that day, or gain the credit of taking spontaneously the more liberal attitude which an ever-increasing number of her best minds have already mapped out as the only enduring foundation of peace in the Far East."

**Paderewski**  
I quote this rather fully because it puts into words the opinion of 95 per cent of Britishers in China.  
"Signs too, are not wanting," added the writer quoted above, "that poison is being dropped into the ears of some of the Chinese newspapers to set them against the conference."  
"We do not believe there is any difficulty so great that frankness and the spirit of give and take will not overcome it."  
"That is the spirit in which the delegates from the western nations will go to Washington. We cannot believe that the Japanese people will wish that their representatives should portray them to the world in any other light."

## Germany Not Jumping Thru Hoop

(Continued from Page One)  
The executive branch of the government can be sure what the course of the American government will have to be. The Germans alone have the answer. And this is why.

The American commissioner in Berlin approaches the German government and says in effect:

"The American Congress has just passed a resolution of peace which the rights of the United States under the Versailles treaty must be safeguarded. That is an instruction from Congress which we can't ignore. Now you know it will take months to work out a new treaty with all the important clauses of the Versailles treaty retained so we suggest a temporary arrangement or agreement in which Germany pledges herself to make a treaty later with the United States in which the rights given America under the Versailles treaty are retained by America."

**Hold Versailles Treaty as Club**  
In other words, the United States has tried to get a reaffirmation of the Versailles treaty in advance of the negotiation of a formal treaty of peace with Germany. If Germany declines then America simply says:

"Don't forget, we signed the Versailles pact and can simply ratify it with reservations that exclude the league of nations covenant and Shantung and we still maintain intact all the economic and reparations clauses which relate to our rights."

Should Germany, therefore, decline to make an agreement pledging America all the rights which the United States originally obtained at Paris, then the Versailles pact must be re-submitted with reservations. The Germans are confronted with an alternative. They do not imagine that an irreconcilable group in the United States Senate will fight to the death any plan to re-submit the Versailles treaty, but on the other hand, even the irreconcilable group will have to bow to the inevitable if President Harding and Secretary Hughes announce that no other course is open to America to get peace with Germany.

If the German government, on the other hand, approves the memorandum handed her by American commissioner Drosel for a temporary agreement which is to precede the making of a new treaty later on, the endorsement of the Harding administration will have been eliminated.

Word from Berlin is eagerly awaited anxiously awaited for it will tell the story of whether a separate peace is feasible or whether the Versailles pact will have to be revived.

**A. F. of L. Council  
In Session**

ATLANTIC CITY, N. J., August 22.—The executive council of the American Federation of Labor opened a week's session here today to act upon unemployment and other matters referred to it by the national convention.

Samuel Gompers, president, was quoted as declaring:

"We are going to settle labor problems where we can not settle them amicably we are ready to fight."

"We are ready to fight."

## Paderewski

Paderewski has no intention of playing in public again. A great artist must put his heart and soul into his art; Paderewski feels he cannot do this because of his intense interest in the affairs of his native Poland.

"I have not played in public for more than four years, and like every part of the human body the fingers require exercise," he says, as he raises his right hand and slowly moves his fingers about.

"One cannot play the piano and politics together," says Madame Paderewski. "My husband never will go back to his music. There is too much else to do."

**Expects Red Drive**  
The man who threw his life into Poland's centuries-long fight for freedom, whose personality and diplomacy won so much for the Poles at the Peace Conference, and who became Poland's first premier, is deeply concerned for his country's safety.

He inclines to the belief that another Bolshevik invasion of Poland is inevitable, unless the present famine causes the overthrow of the soviet government.

Poland is not seeking land, says Paderewski. The Polish people want justice—the justice which the treaty of Versailles intended to give them—and they will not be satisfied until they get it.

**Paragraph 88**  
Paragraph 88 of the treaty gave Germany an advantage that the former premier does not believe was intended.

"Under this paragraph," he explains, "any person born in Upper Silesia, whether a resident of the district at the time or not, was entitled to vote at the plebiscite."

"Taking advantage of this paragraph, 200,000 German subjects crossed into Upper Silesia to vote. Certain districts, known to be made up almost entirely of German population, also were included in the plebiscite area."

"All this contributed heavily to the German victory."

The Poles, he continued, revolted

under the injustice, and despite the efforts of the Polish government a number of disorders occurred.

**Action Taken**  
"The government exerted every effort to bring about peace," he said. "As soon as the disorders commenced the Polish frontier was closed and no one was allowed to enter the contested area."

"But the German frontier was not closed until many organized bands of Bavarians had crossed into Upper Silesia, starting a reign of terror."

"The Poles in the district were quick to see that Germany was faking an open war against them and, of course, they fought the invaders. Still, the Poles who are doing the fighting in Upper Silesia are strictly insurgents and not units of the Polish army."

"I deeply deplore the fact that people should have found themselves in a position where many saw fit to resort to violence, but they simply revolted under the injustice."

**Hopes For Remedy**  
Paderewski believes that the injury done Poland through paragraph 88 of the treaty of Versailles has been forcefully brought to the attention of the supreme council and the matter will be straightened out in the near future.

A three game series will be played this week between the Standard Supply Company's nine and the Vulcan Last Company's nine of the late Municipal League. The Standards finished first and the Vulcans second in the League race, but the Vulcans think they have the better team and have challenged the Standards to the three game series.

## Local Team Beats Winchester

McComick's All Stars, composed of local players, took the Winchester aggregation down the line in a combat played at McCormick's ball yard at Manchester Sunday to the tune of 12 to 4. The Stars put up a fast game both in the field and at bat and simply played the enemy off their feet. "Widge" Monk pitched great ball for six innings and then gave way to Wells after his buckers had attacked the opposing artillerymen with much vigour and piled up a big lead. The feature of the contest was Dunham's heavy hitting, the huge first sacker driving out two home runs over the right field fence and Jeanguen also hit well, securing two doubles. Bill Doherty performed brilliantly at the short field, handling ten chances with much skill and his throwing was fine.

## Irish Parliament In Session To Draft Reply To Britain

DUBLIN, Aug. 22.—(By the Associated Press)—Secret sessions of the Irish republican parliament to draft the Sinn Féin reply to Great Britain's peace proposals began here today. The public meetings last week and subsequent conferences between Eamon DeValera and his colleagues were believed to have laid the ground for an early reply.

The presence of Harry J. Boland, who represented Mr. DeValera in the United States after the Sinn Féin chief had returned to Ireland, was considered as important, as it was believed he would submit to the parliament a report outlining the state of public opinion on the other side of the Atlantic. It has been understood since the initial meeting of the parliament that a decision might be delayed until Mr. Boland reached the city and his arrival yesterday was looked upon as significant.

There have been indications that a certain amount of discussion existed in the rank and file of the parliament over the attitude to be taken toward the British offer of dominion status for Ireland, and it appeared probable today that many members would speak on the question before final decision was reached.

Press comments by Dublin newspapers would seem to reflect a desire on the part of the Sinn Féin not to utterly reject the British offer, but rather to obtain from Prime Minister Lloyd George a statement giving details of the government's offer. Objections have been made that Ireland because of her geographical position, would not be given the same sort of dominion government that is enjoyed by Canada or Australia, and it has been held that the prime minister should define his exact position in this respect. Organs of the Unionists have been urging acceptance of the government's proposals, or at least the submission of a plea to a plebiscite in southern Ireland.

The attitude of Ulster up to today had apparently been unrelenting so far as making common cause with the Sinn Féin in attempting to reach a settlement with Great Britain was concerned. It seemed the decision of Sir James Craig to stand aside during negotiations between Dublin and London had not been reconsidered.

**Bomb Explosion in Belfast**  
The week-end passed quietly in this city, but it was marred in Belfast by the explosion of a bomb.

The result of today's secret meeting awaited with palpable anxiety not unmixed, it appeared with considerable hope of favorable developments. Hardly any one expected a decision today, but it was surmised that some indication of the Daily's final action might be deduced from the first day's session.

# FIGURES ON PROFITS MADE BY LOCAL GAS COMPANY

In view of the controversy over the gas rate in Portsmouth, and the public meeting which is to be held this evening at the council chamber, The Times has had prepared and publishes below some pertinent facts concerning The United Fuel Gas Company, and The Portsmouth Gas Company. The figures given were gathered with great care from such public reports made by the companies as are available and are believed to be correct. The Times would welcome its attention being called to any misstatement and will gladly correct same.

The Times recommends to its readers the most careful study of the facts and figures presented, to assist them in understanding the gas rate controversy. The article follows:

In 1915, and prior thereto gas was furnished domestic consumption in Portsmouth for 25 cents per 1000, net. Nov. 1, 1917, this rate was changed to 30 cents net; and November 27, 1920,

it was again increased to 40 cents net. If the Portsmouth Gas Company has not been making fair dividends these increases are justified.

In Moody's Manual for 1920, page 1524, we find the net earnings of The Portsmouth Gas Company, and dividends for several years, as follows:

Year	Net earnings	Dividends
1916.....	38,916	30,273
1917.....	57,480	41,000
1918.....	113,641	102,000
1919.....	73,146	70,000

The report of the company filed with the Utilities commission of Ohio, shows the net earnings for 1920, after taking out \$23,524 for general amortization, to be \$55,338, what dividend was paid we are not advised.

The capital stock of this company is \$200,000. The dividends were, therefore, 18 per cent, 20 per cent, 51 per cent and 35 per cent for the respective years above set forth.

The Portsmouth Gas Co. is the distributing agent for the United Fuel Gas Company, which pipes the gas from the West Virginia field near Charleston. October 25, 1915, these two companies entered into an agreement whereby the United Fuel Co. was to furnish gas to the local company at the corporation line for a period of ten years beginning January 1, 1916, and ending January 1, 1926, at the following rates:

1916—17 cents per 1000
1917—17 1/4 cents per 1000
1918—17 1/2 cents per 1000
1919—18 cents per 1000
1920 and thereafter—19 cents per 1000

If there was an increase in the rate to the consumers of the city (the rate then being 25 cents) thirty per cent thereof was to be paid to the fuel Co. during the first five years and fifty per cent during the second five years of the contract period. November 1,

1917, the rate was increased to 30 cents net, an increase of 5 cents, the fuel Co. getting 1 1/2 cents thereof. It will be noticed the local company, during 1918, had net earnings of \$113,641. The next two years show large profits also. It had ample funds to meet all its obligations to the United Fuel Company.

Notwithstanding this prosperous condition, by reason of some alleged default on the part of the local company, which has not yet been explained to the people, the United Fuel Company claimed a right to and did terminate said ten year contract on or about Sept. 1, 1920, and by a separate agreement entered into October 1, 1920, extended its operation until August 31, 1922, upon condition, however, that the price of gas be increased to 30 cents per thousand, from 20 1/2 cents, which it was then getting.

Sept. 2, 1920, the local company filed its last schedule at Columbus asking for the 40 cent rate. The increase of nearly 50 per cent to the fuel company is the colored gentleman in the wood pile.

The Portsmouth natural gas franchise was given by the City Council to W. O. Johnson, Feb. 3, 1905. A few months later he assigned the franchise to the United States Natural Gas Company of which he was president, and in September, 1909, this company assigned the franchise to the United Fuel Gas Company and ever since that date it has furnished gas to the local gas company. The interest of the United Fuel Company is apparent. It filed a schedule for the city before the Utilities Commission, Dec. 14, 1914, effective Jan. 15, 1915, rate, 25 cents net. Thereafter all schedules were filed by the local company.

The City Council a few months ago, under the statutes, passed an ordinance fixing the gas rate at 30 cents net. This rate the Portsmouth Gas Company and the United Fuel Company contend is unjust and unreasonably low. The case is pending before the Public Utilities Commission of Ohio for review. The gas companies are presenting the matter to the local council to see if adjustment cannot be had by the acquiescence in the rate without further proceedings.

A similar ordinance on the part of New Boston is pending in Columbus in which the United Fuel Company alone is interested.

Again we say it is a matter of a fair and just rate. Let us see how the United Fuel Company has worked along under past rates. Our data is gotten from Fox's and Moody's Manuals and the Utilities Commission reports. We call attention to gross earnings, operating expenses, surplus and resources:

Year	Earnings	Expenses	Surplus	Resources
1913.....	\$ 3,330,643	\$1,982,110	\$ 928,055	\$15,633,586
1914.....	3,107,532	2,104,802	\$94,550	15,663,681
1915.....	3,234,813	1,847,425	916,987	17,001,528
1916.....	4,732,480	2,796,781	2,481,239	20,840,564
1917.....	9,390,175	4,067,390	4,700,620	27,332,650
1918.....	10,246,530	5,505,316	4,101,000	60,811,430
1919.....	10,484,490	5,088,014	4,283,963	72,802,641
1920.....	12,403,157	5,105,070	6,791,847	76,575,584

**Round figure Totals** .....\$57,000,000 \$27,300,000 \$25,000,000

The capital stock of this company in 1912 was \$100,000, authorized \$600,000 outstanding. The following stock dividends have been issued since:

In 1915.....	\$ 3,000,000
In 1917.....	1,000,000
In 1920.....	20,000,000

Total .....\$24,000,000

Until 1916 the earnings were put in betterments, during which time its resources increased to \$17,901,528. The dividends paid in cash since are as follows:

In 1916.....	\$1,530,000—17 per cent
In 1917.....	3,600,000—36 per cent
In 1918.....	3,600,000—36 per cent
In 1919.....	3,830,000—38 1/2 per cent
In 1920.....	4,800,000—16 per cent

Totals .....\$17,380,000

The dividend for 1920 is based on \$30,000,000 capital.

The foregoing figures show that this corporation with \$600,000 capital stock outstanding and resources of \$15,633,000 in 1913, has grown, without a dollar of new money from its stockholders, to a corporation with a capital stock of \$30,000,000 and resources of \$76,575,000 in 1920, and in the meantime has paid to its owners cash dividends aggregating \$17,380,000, being \$11,380,000 more than the stockholders originally paid in. Fairly profitable!

In 1915, the company's acreage in gas lands was 867,000, and in 1920, 823,000 acres. In about one-half of it it has oil rights. These lands were repossessed in 1918, and \$30,751, 689 were added to the value thereof. This accounts for the enormous increase of resources that year.

Its total pipe line mileage in 1914 was 1138 miles and in 1920, 1458 miles. Some 500 miles of it are main lines. The gas wells in 1914 numbered 452, and in 1920, 680, and oil wells, in 1914, 79 and in 1920, 174.

The initial open flow volume is estimated at over 800,000,000 cu. ft. per day, and has been so estimated for the last six years. Only about 9 per cent of the territory is being operated.

The financial report of the United Fuel Company for 1920 filed with the Utilities' Commission at Columbus contains the following interesting figures:

Gas Revenue.....	\$7,494,400	\$4,702,678
Gas Expense.....	2,791,723	
Gasoline Revenue.....	\$3,014,510	
Oil Revenue.....	1,106,350	
Other Revenue.....	277,717	\$4,998,757
Gasoline and Oil Expense.....	772,900	4,225,856
Total Net Revenue.....		\$8,928,534
Taxes:—		
Federal Excess.....	\$ 963,395	
Real and Personal.....	353,846	
License.....	30,667	
Capital Stock.....	34,965	
Excise.....	23,452	
Miscellaneous.....	184,091	\$1,540,417
		\$7,385,055
Controlled Revenue.....		34,100
		\$7,422,155
Deduct Interest, etc.....		630,343
Net Corporate Income for Year.....		\$6,791,841

The net corporate income for last year alone, \$6,791,841 exceeds by \$791,841 the total amount of original cash money ever put in said company by its original stockholders. The rest is earnings and reappreciation. Out of this surplus for the year the company paid a cash dividend of \$4,800,000, and had nearly \$2,000,000 left. It had also declared and issued a stock dividend of \$20,000,000 making the outstanding stock \$30,000,000. The cash dividend was 16 per cent of this capital. It should also be borne in mind that the above earnings are based upon the 30 cent rate, with the exception of one month. It would seem the company is not in immediate need of passing around the hat.

## Summer Cotton Goods At Close-Out Prices

Many people can well afford to buy new dresses to finish out the summer season at the very low prices now prevailing. The lots of merchandise listed below naturally represent broken assortments as to patterns and colors, but the prices are ridiculously low. Those wanting to save money will do well to investigate these offerings at once. Many people who do not care to have dresses made late in the season save money by buying at the end-of-season prices and laying away such purchases until the next season. We are sure the merchandise below would prove a good investment to anyone caring to follow this plan.

EMBROIDERED ORGANDIE, one special lot, 40 inches wide, embroidered check or dot of contrasting color on colored grounds. These formerly sold at \$2.00 and \$3.00 a yard, now quoted at \$1.50.

IMPORTED DOTTED SWISS, in one special lot, 31 inches wide, mostly on dark grounds, such as red on navy, to close out at \$1.45 a yard.

PRINTED ORGANDIES, in floral designs, 40 inches wide, and dotted silk and cotton dress goods, this lot formerly sold at \$1.00 to \$1.35, to close out at 49c a yard.

PLAIN AND FIGURED VOILES, 38 inches wide, mostly dark effects, formerly priced up to 50c a yard, now going at 19c a yard. Another lot which formerly sold up to 75c a yard, now only 25c.

PLAIN AND FIGURED CREPPES, 38 inches wide, former prices up to 75c, now special at 29c.

LIGHT PERCALE, 28 inches wide or 4 inches wider than calico, and of a superior quality, now 10c a yard.

RENFREW DRESS GINGHAM, 32 inches wide, plain or striped, now reduced to 25c.

SHIRTING GINGHAM, 27 inches wide, in stripes or checks, mostly on blue and tan grounds, only 15c a yard.

NEW PERCALES, just received, yard wide, light 18c a yard; dark 20c a yard.

We have a good assortment of materials for jumper dresses which are in great demand at this particular time. We suggest that those wanting these materials should see our assortment before the color lines are broken.

SUITING, 36 inches wide, at 29c a yard.

BEACH CLOTH, 36 inches wide, at 45c a yard.

FINE QUALITY LINEN, 36 inches wide, at \$1.00 a yard.

These three qualities come in all the wanted colors for jumper dresses.

**THE MARKETS**

**NEW YORK STOCKS**  
NEW YORK, Aug. 22.—Sentiment  
in stock market circles was adversely  
affected at the opening of today's ses-  
sion by the failure of a prominent  
brokerage firm. Oil stocks, equip-  
ments, motors, tobacco and food  
shares denoted fresh liquidation.  
Within the first fifteen minutes de-  
clines of 1 to 2 points were registered  
by Mexican and Pan-American Petrol-  
eums, General Asphalt, Baldwin Loca-  
lities, Chaudler, Studebaker, Summa-  
rized, American and American Sugar,  
Bethlehem and Crucible Steels, as well  
as General Electric, Retail Stores, In-  
dustrial Alcohol and Famous Players  
also were heavy, and many sustained  
moderate losses.

Selling progressed steadily during  
the morning involving many new low  
records. These included Sears-Ro-  
back, American Sugar, Pierce-Arrow,  
common and preferred, Hile and  
Leather, U. S. Rubber, Retail Stores  
Houston Oil, Royal Dutch, Westing-  
house Electric, Pierce Oil, common  
and preferred also were weak, the  
latter dropping 8 points. The urgent  
character of the liquidation was indi-  
cated by a decline of 2 1/2 points at 60,  
3,000 shares of Sears-Roebuck at 60,  
lower at 1 1/4 to 1 1/2 but soon showed  
the effects of the September  
strength and touched 1 1/2.

When the eastern orders were filled  
however, the local shorts rallied Sep-  
tember and the early gains were lost.  
Corn was dull but slightly firmer  
on word that country offerings were  
held somewhat higher than the market.  
The September started unchanged at  
57 1/2 to 58 1/2 and December 1/2 to 58 1/2  
higher at 52 1/2 to 53. The market fol-  
lowed wheat up and held gains of 1/2  
to 5/8 fairly well.

September weak to under 1 1/2, 3/4,  
a loss rallied when the visible supply  
statement showed an unexpected de-  
crease of 362,000 bushels. The close  
was at the top with September 1 1/2 to  
1 1/4, October 1 1/4 to 1 1/2, and Novem-  
ber 1 1/4 to 1 1/2. The market fol-  
lowed wheat up and held gains of 1/2  
to 5/8 fairly well.

# Bodies Of Dead Babies Thrown Into Abandoned Well, Many Bones Found

Colors that did not seem to come from stagnant water but from dead bodies or decaying bones led to the discovery of the bones of several babies in an old cistern in the Peabody addition, New Boston, shortly after the noon hour today.

Chronicler J. D. Hendrickson who was called to the scene to see if there were any other bones in the cistern that might disclose the fact that the bodies of at least four babies had been thrown into the cistern. There were also bones that resembled those of a dog or some other animal.

One of the workmen on the excavating work on Gullin street New Boston, went into the field to cut his lunch. He selected a place near the big rock that covered the abandoned cistern. He did not stay long. He called

ed Marshal Frank Hall of New Boston who decided to investigate. The New Boston fire truck was called and the water was pumped out. The dry cistern then disclosed the large number of bones.

The cistern was in the rear of an old frame dwelling destroyed by fire in 1905. The well is in the big field south of Gallia street and a little east of the Peabody Paving Brick Company's office.

As the news of the finding of the bones spread in New Boston, hundreds of persons flocked to the scene. Just what the bones were will have to be guessed at by the size and condition of the bones. According to Dr. Hendrickson a backbone found indicates that one baby was at least five months old.

## CLAIM LOCAL MAN WAS MURDERED

Kenneth Morford, well known resident of Mann's Run, who met death Saturday at Chilhowee, Missouri, was murdered, according to another telegram received by Undertaker A. D. Bach, Sunday, from the undertaker at Chilhowee, who took charge of the body there.

Further details are to be contained in a letter which will accompany the body.

Morford who was about 45 years of age, had left home several months ago and since that time relatives had not heard a word from him. Morford was well known in New Boston, the vicinity where he was born and reared.

## JOKE PROVES COSTLY TO GILMORE AND STEWART; SPEND NIGHT IN JAIL

Posing as "fly cops" from New Boston "just for fun" at the Holly Whitman soft drink establishment on Chilhowee street, near Eleventh, when they entered the place Sunday noon, turned out serious for Willey Stewart, 29, and Sam Gilmore, 28, who were later arrested by the police on warrants sworn out by Whitman charging them with impersonating an officer and with stealing a black jack.

The two young men were arrested at their home in New Boston, and in default of bond were forced to spend the night in the city jail, but were released from custody this morning after their own recognizance after they had retained Attorney H. L. Small to defend them. Both expressed great surprise over their arrest, claiming that their conduct while at the Whitman place was all in the nature of fun and that they at no time pretended they were authorized officers and declared that it was a misunderstanding.

When the cases were called in Municipal court Monday afternoon, it was stated that Mr. Whitman was ill and unable to appear and Judge Sprague continued the hearing until later. It was stated that Mr. Whitman had been convinced that he was mistaken, as to the real purpose of the actions of the young men and that he did not desire to press the charges further.

## McHenry Trial Being Heard

MANCHESTER, Aug. 22.—The trial of McHenry, charged with beating up Marshal Sowers May 11, began before Judge Stephenson and Jury Monday morning. Fifty witnesses have been subpoenaed from Manchester. The jury disagreed at a former trial. Six women have been drawn in the venire.

## DIES IN ROME

ROME, N. Y.—Howard C. Higgins, general counsel for the Royal Argentine in North America, died at his home here. He had been prominent in the order for years.

## U.S. Send Warships

(Continued from Page One) WASHINGTON, Aug. 22.—While United States marines were sailing southward today to stand by when Costa Rica marches her forces into the tiny bit of territory whose ownership Panama has so earnestly and long contested, officials here expressed the opinion they would have a pleasant cruise and probably never fire a rifle.

The navy department was requested by the state department to send the marines and Secretary Denby of the former department, said the action was purely precautionary. He emphasized that no action was anticipated and the belief generally was felt that the territorial dispute would be amicably adjusted.

Secretary Hughes' note to the governor of Panama, published today definitely declared it the opinion of the "no valid reason" for Costa Rica further to delay the occupation of the disputed territory.

The Pennsylvania, which took on a battalion of marines from Quantico, will move through the Panama canal, join the Pacific fleet and remain with in touch of the mainland where the commanding officer can be easily communicated with by the officer in charge of the Costa Rican force.

The marine battalion consists of two rifle companies and one machine gun company with a battalion headquarters detachment and auxiliary weapons. The troops were provided with a hospital section consisting of three medical officers and a detachment of hospital corps men, Major General Lejeune, this marine corps commandant, announced today.

Lee Brown, 1300 Union street, was before Judge Sprague in Municipal court Monday to meet a peace warrant made against him by Walter Wade, 3223 Thirtieth street, who claimed that the defendant had threatened him with bodily harm and that he would carry out his threats. The hearing disclosed that the men, both colored, are employed at the N. & W. shops and that the trouble between them grew out of alterations over trivial matters which prompted the court to dismiss the complaint and advised the men to make up and be friends.

## Complaint Dismissed

At Mineral Springs J. D. Bridge is spending a week at Mineral Springs.

## NAME ASSISTANT FOR NEW PASTOR

Announcement was made today that an assistant had been engaged for Rev. Hugh I. Evans the new pastor of Second Presbyterian church who comes from Marysville to take up his work here Sept. 1. The pastor's

assistant will be Wylie Young son of a minister of Savannah, O. Mr. Young who has studied for the ministry will be here a year when he will leave to enter a theological school. He is to come here for his new work Sept. 1.

## C. E. Pageant Makes Hit

Before a crowded house at First Christian church last evening, the C. E. Societies in charge of the evening program, made a decided hit with a splendid pageant that consumed the entire evening hour.

The program was in charge of the Missionary Committee of the Local C. E. Society assisted by members from the Intermediate and Junior Societies.

The pageant represented the various phases of life from the study of art,

science, music and letters, and gave the various struggles between entering the Kingdom, bowing before the cross and the call of the world.

The characters were portrayed in splendid fashion and every portrayal was highly appreciated by the large audience.

Next Sunday the Bible School will have charge of the services at First Christian and another very fine program is being planned.

## Betsy Ann On Maiden Trip

The Ohio river was rising slowly in the Portsmouth district Monday morning when a stage of 10.2 feet was recorded on the local gauge.

## McNamara, Who Was Mistaken For Burglar And Shot, Is Improving

Charles McNamara, aged 30, who late Saturday night was mistaken for a burglar and shot three times by Arch Carter was reported better Monday. He was shot in the leg, right hip and the third bullet caused a flesh wound in his back as it struck him a glancing blow.

The shooting occurred at Carter's home, 1108 Kendall avenue. He says he heard a man on his front porch and mistaking him for a burglar, he secured his gun, opened his door and began firing. He says he called to

the man, but received no response and when McNamara fell against his door he thought he was entering his home and began firing. McNamara claims he had been at the home of his brother-in-law who lives in the rear of 1108 Kendall avenue and that he was shot while walking through his yard. Police are investigating all phases of the shooting.

John McNamara a brother of the wounded man arrived here from Columbus. He did not know that his brother had been shot until he stepped off the train.

# FORD PROPOSES ANOTHER REDUCTION IN COAL RATES ON THE D. T. & I.

Relative to the proposed reduction in freight rates on the D. T. and I. the New York Journal of Commerce of local interest, recently said: "As a protest to any suspension by the Interstate Commerce Commission of the recent reduction in freight rates on coal ex-river from Ironton, Ohio, to northwestern Ohio and Michigan destinations by Henry Ford's Detroit, Toledo and Ironton railroad, the National Rivers and Harbors Congress, a voluntary association, whose object is to secure the improvement, maintenance and utilization of the waterways and harbors of the United States, has filed

a brief with the commission in support of the readjusted tariff. "Certain associations have petitioned that this tariff, which becomes effective on August 18 be suspended" states the brief, "but the National Rivers and Harbors Congress requests the commission not to suspend this tariff, but to permit it to become effective. It would be a narrow and superficial view to assume that the issues involved in this question affect only the territory and the interests immediately related thereto, for, as a matter of fact, the interests of the entire nation will be fundamentally and affected by the

decision rendered in this matter by the commission. "In conclusion, it is submitted that, refusal to approve the D. T. and I. tariff No. 1. C. C. 402 would be equivalent to saying to the railroad company, we will not allow you to do voluntarily, that which we have authority to compel you to do against your will; "That such refusal would be contrary to the public interest, which urgently requires the fullest possible development of transportation upon our improved waterways thru the co-ordination of rail and water traffic; "That such refusal would constitute a failure by the commission to carry out a mandate of congress, especially as expressed in Section 500 of, and the amendments to the Interstate Commerce act included in the Transportation act of 1920; per contra.

## COURT HOUSE

### Will Probated

A will executed on Oct. 27, 1890, by William Moritz, late Clay township farmer, who died April 13, 1921, was admitted to probate Monday. Under the terms of the will he left his entire estate to his widow, Hannah Moritz except small cash bequests to his three children, Elmer, Anna and Ella Moritz.

### Wife Sues for Divorce

Sadie Munion charges neglect and cruelty in her suit for divorce and alimony instituted in Common Pleas court Monday against John Munion, whom she married July 21, 1913.

In her petition filed through Attorney George W. Sheppard the plaintiff alleges that Munion nagged and quarreled with her, accused her falsely of unchastity and declares she has been compelled to remain away from her relatives on account of his jealousy. She further claims that they separated a number of times and says she took him back each time on his promise to do better, besides, she complains, he has neglected her for the association of other women.

### Sissel Arrested

On a warrant charging violation of the prohibition laws Levi Sissel, Twin Creek young man, was taken into custody by county officers late Saturday night and brought to the county jail. On being arraigned before Judge McManus Monday the accused pleaded not guilty to manufacturing liquor and was remanded to jail in default of bond pending his hearing.

The officers have been looking for Sissel for some time, it being claimed that the offense of which he is charged, that of participating in the operation of a still, was committed some months ago. Sissel is said to have fled at the time some of his alleged colleagues were apprehended and he only recently returned to the home of his father, Andy Sissel, Nile township constable.

## WILL ROGERS' BOYS WILL BE BOYS

Based on the story by Irvin S. Cobb and the play by Charles O'Brien Kennedy  
DIRECTED BY CLARENCE BADGER

Starting Tonight for Three Nights the Eastland Theatre Will Offer Another Great Program of Entertainment Presenting that Human Actor Will Rogers in Irvin S. Cobb's Famous Story "Boys Will Be Boys." A Picture that will leave you in a Glove of Happiness—Special Musical Settings, Prologue and Other Features.

## PROGRAM

A—"Content" a new Kaufman masterpiece.  
B—"Hubbly Bubbly" a new Christie Comedy.  
C—"Overture, 'Ole South" Played by the Eastland Orchestra, Wm. Spitzer, conducting.  
D—"Atmospheric Prologue."  
E—"Goldwyn presents Will Rogers in 'Boys Will Be Boys.'" Will Rogers, Goldwyn star, will be seen in one of the best character parts he has ever played in "Boys Will Be Boys," a picture taken from the story by Irvin S. Cobb, which comes to the Eastland Theatre for three days commencing tonight.  
Rogers has the part of "Peep O'Day," and it is about the adventures that befall him before and after he falls heir to a fortune that the story is based. The action occurs in a little Kentucky village and the main characters are Peep O'Day, Judge Priest, Lucy the school teacher, Mrs. Hunter, the willing widow, Sublette, a crooked lawyer, Brock the sheriff, and Kittle, the impostor.  
Peep O'Day is a good natured, dreamy and mysterious Irish hick, gentle and abused. He suddenly falls heir to a fortune in Ireland and his first thought is to enjoy the boyhood which he has never had. He consequently plays all sorts of pranks and the neighbors think he is crazy. Sublette uses this as a hook upon which to hang a plot with which to get Peep O'Day's money. Lucy, the sweet young school teacher, in love with the young town lawyer, undertakes to teach Peep O'Day his lesson in the school house. Mrs. Hunter, the willing widow, also out for Peep O'Day's money, sees them there and starts a scandal. Sublette and his accomplices import Kittle from Louisville to impersonate Peep O'Day's cousin. She is a good hearted schemer and in a courtship scene which closes the story, comes out strong for Peep O'Day and shows up Sublette and his gang.  
The character of Peep O'Day gives Rogers an opportunity to display his peculiar and personal humor in several new directions.

## THE MOVIES

BETTY COMPSON  
"Prisoners of Love"  
GOLDWYN

The Picture All Portsmouth is Waiting for Comes to the Eastland Theatre Starting Thursday in "Prisoners of Love" Starring the Bewitching new Star Betty Compson in Her First Appearance Since "The Miracle Man." Watch and Wait for This Big Production.  
Betty Compson, whose meteoric rise to stardom was the result of her remarkable portrayal of the role of the girl in the George Loane Tucker production of "The Miracle Man," makes her initial stellar appearance in "Prisoners of Love," which will be presented at the Eastland Theatre beginning Thursday. The picture was personally produced by Miss Compson, who is now at the head of her own company, and was directed by Arthur Rosson.  
The story is taken from one of the works of Catherine Henry, and contains innumerable tense dramatic situations which give Miss Compson the fullest opportunity to display her remarkable versatility. The action carries her through the complete range of human emotions and her first production stamps her as one of the really great actresses of the screen.  
Death's swift intervention fails to solve the riddle of "Prisoners of Love," and the best work of many present dramatists seems childish compared with the magnificent gesture with which the picture ends.

The Strand Tonight and Tomorrow will offer the Picture of Zane Grey's Famous Story, "The U. P. Trail." Here is a Play of Wonderful Appeal That You Do Not Want to Miss.  
The Best of Hampton super-production "The U. P. Trail," a Hollywood release opens tonight at the Strand Theatre for a two day engagement. Adapted from the well-known book of the same name by Zane Grey, this splendid, virile story of pioneer days of adventure along the Union Pacific railroad, where men from all over the world came to try their luck at gold-getting and gold-making, has lent itself remarkably well to the screen.  
In a great dance hall run by "Beauty Stanton," is found the very epitome of life in the West as it was lived in those days. Rough boots tramping innumerable on a board floor beside dainty satin slippers, perfume mingled with the pungent odors of burnt gunpowder, gowns of Parisian design in the wild with rough homespun and corduroy—there are a few of the contrasts shown in this drama of thrills and love and pathos. And in this atmosphere of contrasts "Beauty Stanton" herself presents the greatest contrast of all. A woman of excellent refinement and good ancestry she came to the town of Benton, "a roaring hell of lust and greed and gold and death," on the U. P. Railroad, and established herself as owner and proprietress of the greatest dance hall and gambling saloon in the country. Here, too, is seen the end, as well as the beginning of "Beauty Stanton's" colorful adventure, when she gives her heart and soul and then her life for the love of a man who loves another girl.

## Work Halted On Dreadnoughts

WASHINGTON, Aug. 22—Construction of two dreadnoughts at Brooklyn navy yards has been ordered suspended.

A high naval official declares that the suspension has nothing whatever to do with the coming disarmament conference or with results of the recent airplane-vs.-battleship test off the Virginia capes.

The only reason for curtailment, the official said, was that the naval appropriation was not great enough to carry out the building program. Work will go forward on a few more battleships almost completed.
